

ADMINISTRATIVE CIRCULAR ON THE SUBMISSION, IN WALLONIA, OF A REQUEST FOR NOTIFICATION OF TRANSBOUNDARY WASTE SHIPMENTS SIMILAR TO A PREVIOUS NOTIFICATION ISSUED LESS THAN 3 YEARS AGO

The notifier may report that a notification request is similar to a previous notification for which consent was granted less than 3 years ago in order to benefit from a simplified review process.

The changes made may only concern the following elements:

- An update of the list of carriers (as well as their authorisations and insurances policies);
- The number of planned shipments and the expected quantity;
- The cost of recovery and the respective estimated value of the materials recovered;
- The route if it concerns the same competent authorities;
- The contact details of the contact persons of the various parties involved, as long as the companies remain the same.

The letter of transmission of the file will include the notification number of the previous file and will identify the changes made referred to above.

The complete file with all its annexes, including the additions and amendments requested by all authorities in the previous file, must be provided again, even if the present dossier is similar to the one referred to.

In addition, a table is attached showing the updated summary of transport operations carried out under this previous notification.

Done at Jambes,

26. 01. 2026

The Chief Executive Officer,

Renaud BAIWIR
